

Shell Construction[®]

Super Energy Efficient Building Design

NO NEW BUILDING MATERIALS NEEDED; USES STANDARD 2# CLOSED CELL SPRAY FOAM

- Cut building costs.....outside/in application bonds all materials together creating a "Super Strong Shell"
- Eliminates ALL air infiltration; increase R-Factor
- Eliminates thermal bridging through studs & joists
- Controls living environment; downsize heating & cooling
- New Construction, remodels, residential & commercial
- Never have drywall repair due to roof & wall leaks
- More options for exterior wall coverings
- Set up for integrated roof or wall solar panel units
